Oakford Homes Vickers Mews

High seas heritage

Vickers Mews has a fascinating past, which Oakford Homes has chosen to commemorate by naming the development after a piece of nautical history. Originally Vickers Engineering Company and later, Vickers Armstrong this was the home of the largest floatation tank testing facility in Europe. The Vickers Ship Model Experiment Tank occupied the site between 1913 and 1985.

The tank, which could hold around 600,000 gallons of water and measured 20ft wide by 11ft deep, was filled to test the buoyancy and design of submarines, seaplanes and ships. Scale wax models were accurately made by hand, lowered from above and floated in the tank. A wave machine was used to simulate high seas, testing how hulls withstood treacherous conditions and how vessels would progress through the waters. In later years, cameras were rigged to capture how the boats fared, helping inform how many historically important naval vessels were designed.

The most famous watercraft to be tested at Vickers Engineering Company was the Royal Yacht Britannia, although more than 2,000 military, merchant and private ships were also put through their paces.

Landmark living comes to St Albans

Vickers Mews is a flagship collection of architecturally-designed townhouses in St Albans, presented in a contemporary style with industrial influences and an elevated specification. The homes will be within walking distance of St Albans City train station (21 minutes direct to London St Pancras), with shops, bars and restaurants close by. Complementing the townhouses will be the sensitive conversion of an Edwardian building located at 'the bow' of this superb development into 9 apartments rich in original features.

Living life in the heart of St Albans

The city's calling

St Albans is arguably the pinnacle of city living outside of London. The sophisticated mix of history, hospitality and culture is compelling, and is why St Albans is repeatedly voted one of the best places to live by The Sunday Times.

There's a flourishing gourmet scene along Market Place and in the Cathedral Quarter, complemented by independent cafés and buzzing bars. Residents can also choose from large live music venues and theatres, or opt for more intimate spaces, including innovative social hubs with bars, restaurants and film screening rooms.

The St Alban's retail experience takes you from independent stores tucked down narrow streets, cobbled lanes and regular artisan markets, to indoor shopping centres, a busy High Street, Waitrose and a number of other leading supermarkets.

The city's rich Roman history is well documented in local museums, although residents can get up close to the past thanks to the 11th century cathedral, the remains of an ancient amphitheatre and the city's original Roman walls, which lie within the 100 acres of Verulamium Park.

Connections

St Albans packs a rich collection of experiences and attractions into almost seven square miles – a centre that’s less than a mile from Vickers Mews. Within walking distance are the mainline train station, St Albans Abbey, St Albans Cathedral, an Art Deco cinema, Verulam Golf Club and a myriad of shops, restaurants and bars, including a branch of The Ivy, Lussmanns, Tabure and Craft & Cleaver to name but a few.
